

Get Ready for Van Hise's Explore Science Night Friday, April 17 (6:00-7:30)

Calling all parents who love science...

In addition to the student science projects, we are looking for parents who want to provide fun hands-on exhibits OR educational materials OR a poster session about your scientific area of expertise or interest. We're looking for age-appropriate exhibits and hands-on activities that allow kids to explore biology, chemistry, anatomy, psychology, zoology, computers, robotics, food, gardening, the environment, or any other scientific field. You could even lead a quick science experiment (e.g. color-changing liquids, making slime) with students. The list is endless...

This form must be returned to your child's teacher or the PTO mailbox by Monday, March 16th. You can also take a picture of your completed form and send it to mauldrid@gmail.com.

Have questions about a station or exhibit? Contact Michele Auldridge at mauldrid@gmail.com. Adult led stations will be in the Van Hise gym.

Yes, I want to have a station at Explore Science Night or volunteer to help with the event. Please include any special requests for your adult project such as, need to be near an electrical outlet, access to water, or extra space (standard space is 3'x5'). Use the back of this sheet if you need more room.
